

BACKPACK FEATURES

BACK PROTECTOR SPS PRO²

Certified by the German Technical Inspection Association (TÜV), the back protector may be removed and used separately with your own carrying system. Ergonomically shaped and weighs only 255 g (S).

D-SKIFIX

Diagonal ski fastener, versatile in use.

SAFETY COMPARTMENT

Immediate access to emergency equipment.

WIDE HIP BELT

Wide, elasticated, and made from comfortable neoprene for an optimal body-hugging fit, even when in motion.

HYDRATION SYSTEM COMPATIBLE

Convenient stowing of hydration bag in back section that folds open.

ICE AXE AND HIKING POLE ATTACHMENT

Simple, rigid fastener allows rapid access to ice axe and poles.

INSULATED SHOULDER STRAP

Prevents freezing of drinking tube.

X-SKIFIX Multi-functional ski fastener with aluminum clasps: Carry skis diagonally or crossed.

CHEST STRAP WITH

ALARM WHISTLE to quickly draw attention in emergency situations.

HELMET NET

Removable net for convenient and secure fastening of a helmet, which can also be used in combination with attached skis.

SNOWBOARD AND SNOWSHOE FASTENER

Flexible carrying fastener for snowboards, snowshoes, and others.

BRIGHT INSIDE

Light colors inside make it easier to find your equipment.

BACK ACCESS

Rapid and convenient access to the entire contents of the main compartment.

GOGGLES CASE

Padded, reinforced, and removable goggles case for storing delicate items without damage.
