

Technical Data Sheet

RESCUE SOFTSHELL JACKET M/W

The **RESCUE SOFTSHELL jacket** is designed for versatile alpine use in both summer and winter. Its wind-resistant **MERINO SHIELD TEC** main material offers high elasticity and enables unrestricted freedom of movement. Robust **MERINO SHIELD LIGHT** inserts reinforce exposed areas such as the shoulders, sleeves and hips. Merino wool next to the skin provides a high level of comfort and supports moisture and temperature regulation.

Key Features

- **Abrasion-resistant and breathable material mix with merino wool:** For enhanced comfort during demanding missions.
- **Operational protective design:** Protective hood with a separate collar and a high-reach fit provide additional coverage and freedom of movement during operations.
- **Backpack- and harness-compatible pocket configuration:** Two front pockets remain accessible when wearing a backpack or harness, complemented by a sleeve pocket, breast pocket and inner pocket for organized storage.
- **Integrated radio microphone holder:** Dedicated attachment point allows the radio microphone to be positioned securely and kept readily accessible during operations.
- **Visibility, identification and logo personalization:** Reflective design elements improve visibility, while the hook-and-loop name-tag patch, writable inner name area and customizable logo application support clear personal and organizational identification
