

Technical Data Sheet

RESCUE 3L JACKET M/W

The RESCUE 3L JACKET is a technical shell jacket for demanding operational use in storm, snow and rain. Its zoned 3-layer construction combines robust protection, low weight and freedom of movement. The windproof, waterproof and highly breathable DERMIZAX® NX membrane provides reliable weather protection. A longer, high-reach fit and operational features such as helmet-compatible hood, ventilation, radio microphone holder, reflective elements and identification and logo-personalization options support professional use.

Key Features

- **Zoned 3L material construction:** Robust 3L Shell material protects highly exposed and high-stress areas (shoulders, arms, hips), while stretchy 3L Ortler material supports freedom of movement (underarms, back, hood). Lightweight 3L Shell Light material on the front reduces weight and enhances breathability.
- **DERMIZAX® NX weather protection:** Windproof, waterproof and highly breathable membrane technology provides reliable protection in storm, snow and rain.
- **Operational fit and hood:** The longer, high-reach fit supports comfortable movement in bent-over working positions. The quick-attach, two-way adjustable storm hood is helmet compatible.
- **Operational ventilation, storage and communication:** Two-way underarm ventilation, a two-way front zipper, breast and inner pockets, plus a radio microphone holder support efficient use.
- **Visibility, identification and logo personalization:** Reflective design elements enhance visibility, while the hook-and-loop name-tag patch, writable inner name area and designated areas for organization logos and lettering support clear personal and organizational identification.

Material

3L Shell

- DERMIZAX® NX: Nonporous PU membrane
- Wind- and waterproof: min. 20,000mm water column
- 100% windproof
- Breathability: up to 28,000 g/m²/24h
- 2-way stretch material

3L Ortler

- DERMIZAX® NX: Nonporous PU membrane
- Wind- and waterproof: min. 20,000mm water column
- 100% windproof
- Breathability: up to 32,000 g/m²/24h
- 4-way stretch material

3L Shell Light

- DERMIZAX® NX: Nonporous PU membrane
- Wind- and waterproof: min. 20,000mm water column
- Lightweight: 82 g/m²
- High breathability: up to 40,000 g/m²/24h
- Minimal pack size
- 2-way stretch material

Features

- Quick-attach 2-way adjustable storm hood (helmet compatible)
- High-reach fit
- Hook and loop patch for name tag
- Writable name area on the inside
- 1 Ski pass pocket
- 2-way underarm ventilation
- 2-way front zipper
- 2 breast pockets
- 2 inner pockets
- Radio microphone holder
- Reflective design elements
- Adjustable cuffs and waistband
- Longer fit

Logo personalization

- Left chest: Organization logo up to 6 cm in diameter
- Right sleeve/shoulder: Rectangular logo up to 8 × 5 cm or round logo up to 5 cm in diameter
- Back: Text, including reflective lettering, up to 28 × 14 cm
- Transfer printing or embroidery, depending on the product and material

Material Compositions

Main material 1 (3L SHELL): Outer: 100% polyamide, membrane: 100% polyurethane, inner: 100% polyester

Main material 2 (3L ORTLER): Outer: 100% polyamide, membrane: 100% polyurethane, inner: 100% polyester

Main material 3 (3L SHELL LIGHT): Outer: 100% polyamide, membrane: 100% polyurethane, inner: 100% polyamide

Certifications & standards

Bluesign Restricted Substances List (RSL)

(comparable to OEKO-TEX® Standard 100 Annex 4)
