

Technical Data Sheet

RESCUE FLEECE GRID JACKET M/W

The RESCUE FLEECE GRID JACKET is a lightweight, breathable and quick-drying mid-layer designed for operational use in changing outdoor conditions. Its waffle-structured Merino Fleece Grid material provides efficient thermal insulation, while merino wool next to the skin supports temperature regulation and is naturally odor-resistant. Windproof Tec-Stretch inserts in the chest area provide additional protection without restricting movement. The jacket is equipped for operational requirements and offers functional features for comfort, mobility, identification and visibility.

Key Features

- **Merino Fleece Grid material:** The waffle structure provides warmth, high breathability and quick-drying performance with a balanced warmth-to-weight ratio.
- **Merino wool next to the skin:** Soft merino wool supports natural temperature regulation and is naturally odor-resistant.
- **Windproof chest inserts:** Lightweight Tec-Stretch inserts protect the chest area from wind while maintaining excellent freedom of movement.
- **Functional fit and comfort:** The high-reach fit, protective collar, thumb loops, elastic cuffs and elastic waistband provide secure coverage and comfort during active use.
- **Identification, visibility and personalization:** An internal name-tag area and designated options for organization logos and lettering support clear identification, while reflective design elements on the back enhance visibility.
